Part III.

- ☒ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.
☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.

(Examiner/SPE Signature)

(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner called Ms. Greuneberg to indicate that the application was almost in condition for allowance except that new claim 15 was in definite because it set forth a range with alternate upper limits. It was agreed that an Examiner's Amendment of the following form would be made:

The claims have been amended as follows:

Claim 15, lines 2-3: The phrase [or at most the boiling point of a solvent used during the transesterification] has been deleted.

The following new claim has been added:

21. The process according to Claim 1, wherein a temperature for the reaction of the fluorinated ester (1) and the compound (2) is at least -50 C and at most the boiling point of a solvent used during the transesterification..
